Repercussions from RHA for losing the keys

Remove all locks from dorms so keys aren't even needed.

Charge money for replacement keys

Offer an warranty

Change out the keys for electronic fobs that can be put on a key chain

Get rid of keys and use number code locks

Create a chip that can be put into a card similar to a debit card chip

Add doorknob with fingerprint recognition

Assign codes to students

Create a unlock/lock system with a bluetooth connection

Give out a special holder for the keys so they cant be as easily lost

Allow students to make spares of keys.

Be able to use student ID to open door

Number pad for the assigned door code

Change locks on all the dorms and make them electronic so students can use their phones to get into dorms.

Create digital keys that can be kept on the phones

IOS and Android applicable

Make a easy to use app.

Phone hotline to help with finding lost keys

Include a beeper with the key

Tie a bell to their key so they can know when its on them.

Include mini-trackers with keys.

Integrate a tracker into the key
